PROFESSIONAL SUMMARY

Computer Science undergraduate at GGSIPU with a strong interest in Full-Stack Web Development and Backend Engineering. Passionate about building scalable applications, learning modern technologies, and solving algorithmic problems.

EDUCATION

- **B.Tech CSE** | Guru Gobind Singh Indraprastha University (GGSIPU)
- **Class XII (CBSE)** | GD Goenka Public School

SKILLS

- **Languages:** Java, C++, JavaScript (ES6+), Python, HTML5, CSS3
- **Frontend:** HTML, CSS, React.js, Tailwind CSS
- **Backend & Cloud:** Node.js, Express.js, REST APIs
- **Databases:** MySQL, MongoDB, Firebase
- **Tools:** Git, GitHub, VS Code, Postman, Figma

PROJECTS

- **X-Pense — Full-Stack Expense Tracker**
  - Technologies: React, Node.js, Express, MongoDB, JWT
  - Built a full-stack expense tracker using React, Express, MongoDB, and REST APIs to manage income, expenses, categories, and transaction history.
  - Implemented JWT authentication, refresh-token rotation, HttpOnly cookies, OTP-based email verification, and session management for secure user access.
  - Developed a dashboard and analytics system with monthly/category summaries, protected routes, and responsive UI using Tailwind CSS and Framer Motion.

- **Blog Platform - Full-Stack Blogging Application**
  - Technologies: React, Node.js, Express, MongoDB, Redux Toolkit
  - Developed a full-stack blogging platform with user authentication and complete CRUD operations for creating, editing, viewing, and deleting posts.
  - Implemented MongoDB-backed sessions, bcrypt password hashing, protected routes, and author-based authorization for secure content management.
  - Integrated Cloudinary image uploads and implemented backend security with Helmet, rate limiting, MongoDB sanitization, and HPP.

ACHIEVEMENTS / HOBBIES

- **Top 10 Finalist, DTU Cryptic Hunt:** Secured a top-10 finish in a highly competitive 48-hour offline event.

- **Top 10 Finalist, Hack Heist (MEIT):** Finished in the top 10 during an intensive 48-hour offline hackathon.
